PROJECTS

Spring Boot API

[View Project](#)

- A simple CRUD API for managing products, built with Spring Boot and Spring Data JPA. The API supports CRUD operations, utilizing HATEOAS for enhanced response links and H2 Database for development.
- Technologies: Java 11, Spring Boot 2.7.x, Spring Data JPA, H2 Database, HATEOAS, Maven, Jakarta Validation.
- Testing: Tested API endpoints with Postman.

Personal Portfolio

[View Project](#)

- Web Desing: Utilized HTML for content structure, CSS for styling, and Javascript for interactive elements, creating a modern, responsive user experience.
- Responsiveness: Implemented responsive design principles to ensure optimal display across various devices and screen sizes.
- Showcase: Hihjlighted projects and accomplishments with a clean, user-friendly interface for easy navigation.

VOLUNTEER WORK

Treasurer | *Rotary Club* | *Serra Negra, São Paulo, Brazil*

Feb - Dec 2020

- Financial Management: Managed the Rotary Club's bank account, ensuring accurate record-keeping and responsible allocation of funds to purchase food for local individuals in need.
- Fundraising and Community Engagement: Organized and led fundraising and raffle events within the community, successfully raising funds to support impoverished families and individuals.
- Community Support and Outreach: Coordinated the donation and delivery of Christmas gifts to children in lower-income areas, enhancing community spirit and providing joy to those in need.
